

In re Patent Application of:  
**PROCTOR, JR.**  
Serial No. **10/634,148**  
Filing Date: **August 4, 2003**

---

**REMARKS**

Applicant would like to thank the Examiner for allowing Claims 1-40. As discussed with the Examiner via the telephone on March 16, 2006, and as helpfully suggested by the Examiner, the present application with Claims 1-40 is being withdrawn from allowance so that new claims can be added and considered in a timely manner.

The new Claims 41-55 are directed to a subscriber unit. The Applicant submits that new independent Claims 41 and 50 contain allowable subject matter from independent Claim 1. Consequently, it is submitted that all the claims are patentable.

Accordingly, a Notice of Allowance is requested in due course. Should any minor informalities need to be addressed, the Examiner is encouraged to contact the undersigned attorney at the telephone number listed below.

Respectfully submitted,

  
MICHAEL W. TAYLOR
